Attend a Virtual Meeting Roundtable

For attendees to connect, grab a table, move business forward with video meetings (share screens, chat, collaborate).

Attendees login to the virtual event.

Attendees can explore many different areas, and there will be a tab for on demand content.

Attendees and authors can message, live chat, or even direct people to a roundtable that is pre-scheduled or scheduled in the moment for further discussion.

Roundtables are easily accessible and can host up to six people at a time.

Simply click an open seat to join (see inset) and find yourself face to face with the author and other attendees interested in additional discussion surrounding a submission.

Roundtables will be powered via Zoom, Teams or Social 27 Infrastructure. (Photo is for example purposes only.)
